APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained will be dependent on the amount of water actually placed to a beneficial use. It is also understood that this right must allow for a reasonable lowering of the water level at the permittee's well due to any other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept, including a record of water applied directly or through retention or exchange, to determine and establish where and when water is beneficially used under this permit. An annual report of such use shall be made to the State Engineer. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed to prevent waste. No perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface. The State retains the right to regulate the use of water herein granted at all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 10.0 cubic feet per second but not to exceed a yearly duty of 4.0 acre feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before October 14, 1971

Proof of commencement of work shall be filed before November 14, 1971

Work must be prosecuted with reasonable diligence and be completed on or before October 14, 1972

Proof of completion of work shall be filed before November 14, 1972

Application of water to beneficial use shall be made on or before October 14, 1975

Proof of the application of water to beneficial use shall be filed on or before November 14, 1975

Map in support of proof of beneficial use shall be filed on or before November 14, 1975

Commencement of work filed AUG 22 1972  
Completion of work filed AUG 22 1972  
Proof of beneficial use filed SEP 17 1976  
Cultural map filed SEP 17 1976 under 5528  
Certificate No. 8861 Issued 10-15-76
